Christchurch – South Island round 3, 6th August 2016

Clerk of the course report

Scrutineering was held on Friday 5th August, there a few issues with fire extinguishers and roll cage bars. This was written in the vehicles logbook.

The club took note of what was said re the marking of the track at the second round and did a great job this time. Again another great off-road racing track.

Early in the race, there was a track blockage where only 2 UTV's were able to get past. The leader U46 stopped at the start/finish line to inform us and wait for the field to catch up. Once approximately 12 cars had turned up, I restarted the race with intervals between cars being as fair as we could. Great sportsmanship shown by Bob Utteridge (U46).

There were a couple of vehicle fires on the track that were dealt with efficiently. 444 was given 4 minutes back for stopping to provide assistance on a couple of occasions. This had no effect on the overall standing.

Radio communication was again an issue. This is something that the club is working on rectifying for future racing.

As usual it was a well run day, I would like to thank the Christchurch Offroad Racing Club for organising the event.
