TO ALL CLUBS

Track Communications between the marshal's.

As part of our joint safety plan, communications around the race track between the marshal's and the pits (Controller) is imperative.

Please insure if line of sight cannot be achieved (Short Course) and especially for Enduro's, a good radio system is employed. Having drivers out in the cold or injured and not accounted for, fire risk, track risk or dangers due to poor communications is not an option from this year and hardly acceptable in the past.

It is the Club's responsibility to make sure that we have a safe track and if required emergency services can be activated promptly

Thanks your help

Yours sincerely

Phil Cameron
