Under age Drivers for respective classes

It is a requirement for all under age drivers to be vetted and observed prior to running in close competition races and they also require a Dispensation for the driver and this is directly related to the Class they are racing in. Can all 'Care Givers' please insure that the respective driver has the dispensation and if not, please apply directly to me giving their racing history. Also, any under-age driver should be running with an "X" on the rear of the car.

Phil Cameron
