Chief Steward Report First Round Kiwi Trucks – ATR

The event was held at the purpose-built track at Pebblebrook Road, Waitoke, a very good track for the Kiwi trucks with plenty of passing room and various style of terrain to keep the drivers alert.

Scrutineering was carried out at the track and involved all the drivers. The scrutineering was carried out by club volunteers with Neville and myself running an overview. There was a good field of trucks on the day.

The race program was set up as three short course and one fifteen lapper with some fierce but clean driving. A couple of roll overs reminded us of the serious need for more in-field marshals that have experience and understand their duties.

We had one situation with a roll over that the marshal was so intent on watching what was coming towards him that he didn't notice the rolled car behind him which the whole field passed. No injuries and no contact to the car in question.

Another good reason to have a marshal meeting to insure all parties know their responsibilities.

The drivers briefing (with most parents in attendance) was accurate and followed with good questions. There were no first time racers.

All in all a good day with close but clean racing, held on a good track. (No rain and sound sub-strake)

Yours sincerely,

Phil Cameron

Chief Steward.
