

From the ORANZ rule book 2018.

**Rule 33. EXHAUST SYSTEMS**

- (a) All vehicles must be equipped with an effective silencer or muffler giving a 90 decibels reading maximum at 2 meters from the vehicle in the direction of the exhaust opening.
- (b) All exhaust systems must exit towards the rear of the vehicle and must not extend more than 150mm past the perimeter dimension of the vehicle.
- (c) All vehicles must be equipped with a spark arrestor for any event held in forest areas or any venue where there is a danger of fire. This includes turbocharged vehicles. This requirement must be stated on the event entry form.

See (Figure 1).

Rule 33 Figure 1.
