

34 ELECTRICAL SYSTEMS

(f) All vehicles shall be fitted with an adequate warning device, e.g., electric horn. **This must be sufficiently loud to the satisfaction of the Scrutineer/Tagger or CTO**

(g) All vehicles must be fitted with **at least one rear facing blue solid or strobing LED light**. This light must be connected in such a manner that it illuminates automatically at all times the engine is running. The dust light lens must have a minimum **area of 60cm²**. **Must be visible from an angle of 45 degrees either side of the longitudinal axis of the vehicle**. Multiple lights of a smaller diameter may be mounted immediately adjacent to each other to achieve a result, e.g., **2 x 30cm²** lights. Solid amber dust lights can remain on the rear.

The light must be sufficiently bright to the satisfaction of the Scrutineer/Tagger or CTO

Orange flashing rearward facing lights are to be used on Track or Roving Marshal vehicles only.

(h) All vehicles competing in Enduro events must be fitted with a forward-facing **solid white** spotlight with a minimum sized lamp of 50W or equivalent LED's (approx. 400 Lumens). **No coloured forward-facing lights are permitted.**
