14<sup>th</sup> September 2019  
National's Round – Kurow

Scrutineering was carried out in standard well organized fashion.  
The Nationals were short course only being four rounds for each class.

The short course track had been well prepared and proved to be fast and challenging to some.  
Multiple roll overs but no injuries were reported.  
Medical checks were carried out and recommendation for further medical checking was carried out.

Due to the amount of individual races, the short course event finished in late afternoon.

As a recommendation, I would suggest more marshal positions for the short course track while racing short course.  
Especially at the top of the natural jump and over the hill.

Very little to comment on, well organized, great written Safety Plan, good marshal and driver briefing.  
A big thank you to all the work that Slim and helpers put in to make such a track.

All in all, a well run event and a credit to the Otago Offroad club.

Yours sincerely,

Phil Cameron

Chief Steward.
