22nd September 2019

Waikato Off-Road Race Club – Round Three- Short Course at the Raglan track

WORRC laid on perfect weather for the day, creating a little dust that the breeze took care of.

The scrutineering was carried out in a professional manner with Neville (Chief Tech) also in attendance. A few cars had problems identified and logged into their respective log books.

Fifteen R/T's were placed in marshal hands and good communication was maintained.

A good turn out in numbers with both marshal and drivers briefing carried out and all questions answered. There were more than enough volunteer marshals which is good to see.

Crowd control was well laid out, but it didn't stop the local farm workings settling into their favorite spots, although well off the track and very respectful for the race event and its management.

The race format was four by five lap heats per class. Some classes were mixed and well separated by timed flag drops.

There were no injury accidents reported that I am aware of though there were some post-race checkups after roll overs. The on-site Ambulance people were very professional.

No protests lodged, all in all a good days racing.

Prizegiving was held at the race site with free burgers for those that were hungry.

I am aware that some drivers own some fencing and fence posts

Yours sincerely,

Phil Cameron

Chief Steward.
