31st January 2020

Bulletin from Executive Team

ORANZ rule book - Truck Class

Over the last few years, there has been much discussion about class amalgamation or reduction. The executive team have heard a wide range of suggestions from Club delegates at various Council meetings, Club submissions and emails. There has been a lot of information to consider!

The registration and attendance of Class 2 and Class 6 vehicles at National Events has been monitored over the last 2 years. Added to the low attendance of these classes and new information from our insurance agent that the current rules for Class 6 carry serious legal implications, (effectively voiding our Insurance) the Executive has agreed to the following plan from 2021:

Class 2 rules will be removed and **Class 2 vehicles will move to Class 4**. Class 4 rules will be revised to allow this transition.

Class 6 rules will be removed and **Class 6 vehicles will move to Class 8**.

The revised rules will follow this bulletin shortly.

Regards,

The ORANZ Executive Team
