1st February 2021.

Bulletin re: Class Exhibition.

Rule 62. Class Exhibition.

Any vehicle that currently does not fit the criteria of any current ORANZ class and falls outside the technical rules but adheres to all current safety standards as per section: Vehicle Safety Rules & Requirements.

As this is a trial class for 2021 the discretion will be with each hosting club if, and how to incorporate these vehicles into their events but the emphasis will be on safety and compliance.

Exhibition Class is intended for off road racing vehicles that do not comply due to being outside of specific class rules due to modification or design variables.

- (a) All competing vehicles must pass a Vehicle Annual Compliance check and meet Tech Inspection each time the vehicle is presented for ORANZ sanctioned events.
- (b) Reference: ORANZ-Annual-Compliance-Form-2021.pdf
- (c) All competing vehicles / competitor's must be ORANZ registered and Tagged for the current season (current club membership and ORANZ registered to correct licence as per current membership fee structure).
- (d) Any vehicle that does not fit into a Current ORANZ class, the Tech inspector from the club will need sign off on the vehicle by the CTO and a detailed note of the non-compliant points. The CTO reserves the right to reject any vehicle.
- (e) No tag will be issued by a club Tech inspector without prior discussion with the CTO. The tag will be removed if found in breach of this rule.
- (f) Exhibition class competitors will NOT be eligible for National or NZ title event points.
- (g) The event organizer has the right to start Exhibition class competitors from the front or rear of the grid if deemed they may impede ORANZ class competitors currently competing for National / NZ points.

As this extends to classes not currently formatted underage dispensations to any vehicle not categorised in the current Junior ORANZ classes rules will apply.

Kind regards, The ORANZ Executive Team.
