Bulletin - Designated Spectator Areas

4 July 2021

It is a requirement on our event permit to provide 'designated spectator area/s'.

The host club is responsible for clearly marking out these area/s with tape and signage. The host club must ensure there are enough marshalls on site all day to safely guide the spectators to and from these viewing area/s.

There must also be marshalls present at these 'Spectator areas' to make sure spectators remain as safe as possible within these designated areas.

These area/s needs to be displayed clearly on a map at the event site for everyone to view.

I have seen at a recent event where spectators were just strolling along the race line. This is not acceptable. Let's be more proactive here and try and keep everyone as safe as possible.

If you have any queries, please feel free to contact me.

Regards,
Kerry Thomason
